FINISH	POLISHED
EDGE TREATMENT	EASED EDGE

the Calacatta

By Best Cheer Stone

ENGINEERED STONE

RESILIENT

The dense structure and extreme hardness of the engineered stone protects against stains, fading, and scratches:

Resists staining from coffee, wine, fruits and other normal kitchen/household liquids.

Resists fading and discoloration caused by chemical reactions to alkaline and acids such as juices, colas and vinegars.

Resists scratches and surface marks with a hardness much higher than marble and limestone.

FACTORY DIRECT

Have a large project? Best Cheer Stone's factories produce a wide range of stone products, including engineered stone, granite, marble, quartzite, and dolomite. Consolidate your shipments directly from our factories to save time and money.

TOP RESEARCH & DEVELOPMENT

Best Cheer Stone operates a state-of-the-art engineered stone research and development lab devoted to delivering the finest quality, highest standards, and proven innovation to the company's wide-range of products.

SAFE

BCS Engineered Stone have been certified by GreenGuard to have low chemical emissions, improving the quality of the air in which the products are used, and certified by NSF to meet strict standards for public health protection.

INNOVATION

Best Cheer Stone is a leader in delivering innovative, premium engineered stone products to the market.

“Nature-inspired,
Elegantly Crafted,
Timelessly Enduring.”
